

～Welcome to Kumamoto～

Welcome to the Neighborhood!

Let's Talk About Neighborhood Councils and How to Get Involved

Neighborhood councils are made up of local residents. We work together to start initiatives so everyone can enjoy our community. These initiatives help to connect neighborhood residents, put names to faces, ensure community safety, and make every day better.

Prevent Disaster

We check evacuation routes and areas and prepare for natural disasters, including earthquakes.

💡 It's nice to know you can depend on each other when disaster strikes.

Sharing Information

We make announcements and distribute information about regional events and local issues.

💡 It's important to be able to receive information that affects your everyday life.

Clean the Area

We clean designated garbage sites everyday, so please follow the garbage disposal rules.

💡 Everyone appreciates having a clean community.

Safety First

We organize safety patrols to protect against danger and maintain the light posts that illuminate local roads.

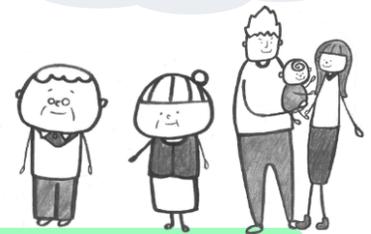

💡 No need to worry about dark and scary roads at night.

Games & Activities

We hold various festivals and sporting events. Anyone can join in!

💡 It's a perfect chance to get to know each other.

We All Pitch in!

We promote resident health and provide child-rearing support.

💡 We work to increase local interaction and host get-togethers for mothers in the neighborhood.

Contact Us

About Neighborhood Councils

Please contact General Affairs Planning Section, your local Ward Office or Regional Activities Development Section (328-2036)

If you have any other concerns, please contact the Kumamoto Consultation and Support Plaza for Foreign Residents (096-359-4995).

※ Depending on what you need, the center can help refer you to a professional who can help.
