

Engaging Industry In Sustainable Water Management Through Water Stewardship

Date &
Time

15 April 2021 **Thu**
14:00-15:00 (Japan Time)
15:00-16:00 (Brisbane Time)

Speaker

Ms. Megan McLeod, CEO, Alliance for Water Stewardship Asia-Pacific (AWS Asia-Pacific)

Overview

Water stewardship has been identified as a means to engage industry in sustainable water management and achieving the water-related SDGs. While uptake of water stewardship has been growing, the scale and complexity of the region's water crises requires dramatic acceleration. This webinar will provide a brief introduction to water stewardship and present practical examples from industry across the region, including Japan, China, Indonesia and Australia, that are using the Alliance for Water Stewardship framework to drive sustainable action on water at site, catchment and supply-chain levels. Given the urgent need to scale-up good water stewardship, the webinar will conclude with research on constraints and motivations for participation and recommendations to promote uptake. This webinar is relevant to all water stakeholders including industry, government, investors and development partners.

About the Speaker:

Ms. Megan McLeod is Chief Executive of the Alliance for Water Stewardship Asia-Pacific, the regional Partner of the global **Alliance for Water Stewardship (AWS)**.

Megan has been involved with water stewardship since before the AWS International Water Stewardship Standard was launched in 2014 and has managed and advised on world-leading water stewardship projects.

Based in Australia, Megan leads the AWS Asia-Pacific team for the promotion and support of water stewardship across Asia-Pacific.

Megan is a hydrogeologist by training with a Bachelor of Science in Earth Science and Hydrogeology from Flinders University in South Australia.

The Asia-Pacific Water Forum (APWF)

About the APWF

The APWF is an independent non-profit multi-stakeholder network launched in September 2006. The objective is to raise the priority of tackling water security issues highlighted in the development agenda in the Asia-Pacific region in order to improve people's livelihoods and the environment.

It works collaboratively with a wide variety of water-related organizations in the region to build capacity and enhance cooperation, while boosting investment at the regional level and beyond.

Now, the APWF is planning to hold the 4th Asia-Pacific Water Summit (the 4th APWS) in Kumamoto City, Japan in 23-24 April 2022. At the 4th APWS, high-level delegates including heads of state and government and representatives of international organizations in the Asia-Pacific region will discuss various water-related priority issues and reach better alignment of priorities and actions at different levels for a water-safe and sustainable future. (<http://apwf.org/>)

The APWF Webinar Series is organized as an important part of the preparation for the 4th APWS. It aims to provide the government officials of the 49 countries in Asia and the Pacific with an opportunity to learn and deep-dive into water and water-related issues highlighted from different perspectives. Please join the APWF Webinar!

Governance Structure of the APWF

Yoshiro Mori

President

H.E. Mr. Yoshiro Mori

Former Prime Minister of Japan / President of Japan Water Forum

Governing Council

Chair of APWF Governing Council

- Mr. Ravi Narayanan, Former Chief Executive of WaterAid

Ravi Narayanan

Vice-Chairs of APWF Governing Council

- Ms. Changhua Wu, Chair of China Redesign Hub, Office of Jeremy Rifkin
- Prof. Eduardo Araral, Lee Kuan Yew School of Public Policy, National University of Singapore

Changhua Wu

Eduardo Araral

Key Member Organizations
